SUMMARY

AI Engineer with hands-on experience in developing and deploying real-time computer vision systems for intelligent traffic monitoring and surveillance applications. Skilled in designing end-to-end ML pipelines including data annotation, model training, optimization, and production deployment using YOLOv8. Experienced in multi-object tracking, real-time inference (30+ FPS), Dockerized deployment, and Linux-based production environments.

WORK EXPERIENCE

Trainee Engineer Intern

Oct 2025 – Mar 2026

[Futops Technologies India Pvt.Ltd](#)

- Architected and deployed Gunny Bag Detection system using YOLOv8 for live government surveillance.
- Built complete ML lifecycle: dataset preparation, augmentation, training, tuning, evaluation, and deployment.
- Developed Opposite Direction, Triple Seat Rider, Speed Detection, and No Parking modules for ATCC system.
- Achieved 30+ FPS real-time inference through pipeline optimization and latency reduction.
- Improved detection accuracy using mAP, Precision-Recall curves, and confusion matrix evaluation.
- Deployed Dockerized AI services in Linux production environments with logging and monitoring.
- Worked on RTSP stream processing, alert pipeline debugging, and model optimization.

PROJECTS

Real-Time Smoking Detection System YOLOv8-based RTSP detection system with real-time alert generation, cropped snapshot capture, and Streamlit monitoring dashboard.

Battery Health Prediction Built Linear Regression and Random Forest models; evaluated using R^2 and MSE; deployed Flask REST API for live prediction.

Amazon Sales Analytics Designed Power BI dashboards; performed advanced SQL queries for business intelligence and revenue analysis.

EDUCATION

Bachelor of Engineering in Electronics & Telecommunication

Savitribai Phule Pune University

2021 – 2025

CGPA: 7.2/10

Higher Secondary Certificate (HSC)

85.60%

Secondary School Certificate (SSC)

81.20%

SKILLS

Programming: Python, NumPy, Pandas, Scikit-learn, Matplotlib

Computer Vision: YOLOv8, OpenCV, Object Detection, Multi-Object Tracking

MLOps: Docker, Linux (CLI), Git, Flask, Inference Optimization

Data & BI: MySQL, SQL, Power BI, Tableau, Advanced Excel

CERTIFICATIONS

Machine Learning — Power BI — SQL — Python Programming – ITVEDANT
